Notes to Condensed Interim Consolidated Financial Statements
For the nine month period ended September 30, 2014

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS

Ucore Rare Metals Inc. ("Ucore" or the "Company") is a Corporation domiciled in Canada. The address of the Company's head office is 210 Waterfront Drive, Suite 106, Halifax N.S., B4A 0H3. The Company is engaged in the exploration for rare earth elements. The Company is in the process of exploring its resource properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. To date, the Company has not earned significant revenues and is considered to be a development stage enterprise.

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to liquidate its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

The ability of the Company to continue as a going concern and the recoverability of amounts shown for resource properties are dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete exploration and development; and the future profitable production or proceeds from disposition of such properties. These condensed interim consolidated financial statements do not give effect to adjustments necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including IAS 34 *Interim Financial Reporting*.

The policies applied in these condensed interim consolidated financial statements are consistent with the policies disclosed in the consolidated financial statements for the year ended December 31, 2013 with the exception of those new standards, amendments, and interpretations mandatorily effective as of January 1, 2014 discussed in note 3. The date the Board of Directors approved the financial statements is November 28, 2014.

Basis of measurement

The condensed interim consolidated financial statements have been prepared on the historical cost basis except for available for sale financial assets, share based payments, and warrants measured at fair value.

Items included in the financial statements of each of the Company's subsidiaries are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional and presentation currency of the Company.

Use of estimates and judgments

The preparation of financial statements requires management to make estimates, judgments, and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. These estimates are based on historical experience, current and future economic conditions, and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The determination of estimates requires the exercise of judgments based on various assumptions and other factors such as historical experience and current and expected economic conditions. Actual results could differ from those estimates.

The Company's objective when managing capital is to maintain adequate levels of funding to support the acquisition and exploration of resource properties and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financings. Future financings are dependent on market conditions, and there can be no assurance the Company will be able to raise funds in the future.

Impairment

The Company holds a 100% interest in certain claims on the Lost Pond uranium and rare earth element property, located east of Stephenville, Newfoundland. The Company's 100% interest is subject to a 2% NSR (1% on contiguous claims optioned from third parties), 50% of which can be purchased by the Company for cash payments of \$500,000 to \$1,000,000 to each of three different vendors.
